

FROM OUR HEART TO YOURS

Refugees program:

During the past months we have been able to have our English course to our beloved Iraqi women refugees', we are so happy to be empowering so many women and to be part of their success and the journey they are walking in as they are showing a lot of improvement. Due to COVID'19, we have decided to split the classes into groups so it would be safer for the team and the refugees.

We are so proud of our beautiful Iraqi women for completing our English courses for the first semester of the year. Certificates were given to them and the day was spent celebrating their achievements.

During Easter we welcomed refugee children with love, laughter and a much-needed art therapy program

On behalf of Alhadaf Institute Family we would like to thank you for your consistent love and support. We are so thankful for these past months it has been full of services and activities and we are so happy to be sharing the things we have been up to in our programs.

was given to them in order to thrive and express their feelings especially with the lack of schools for most of them.

We love the harmony and the laughter's we are having with the refugees during the English course , they are not only learning something new but also having some time away from all what is happening around them.

For Mother's Day we thought of doing something different for the refugees so they can feel that they are cared about, so we decided to give each refugee a voucher to cut and blow-dry their hair, the happiness on their face was priceless.

We are also starting our sewing class and the teacher is one of our beloved refugees' women that we have been helping for so many years, that way they can feel the joy of giving not only receiving and how they can help each other in these times.

Orphans program:

We are having continuous visits to the orphanage in the North and recently we had the access to the school that is connected to the orphanage where orphan kids go to, we are having some trainings with the orphanage and the school as we planning to set a couple of trainings for the teachers and the caregivers to guide them to the right way in doing art therapy with the kids, We believe that it is important for the teachers to understand the emotions the kids go through. We are trying to spend more and more time with the caregivers in the orphanage to help them by developing their skills so that they can have better understanding of the most convenient way to help the orphans.

In a partnership that spanned for many years with (Dar Al-Kadhim for Innocent Seeds), the closest to our hearts.

Alhadaf Institute has taken it upon itself to conduct training courses for those in charge of the care home and the precious children.

A training visit entitled (Post – COVID Emotional Effect on Children) was held on our previous visit. The goal of this training was due to the presence of children in one place

during the COVID period, its psychological impact on them, and their lack of interaction with the outside world.

“We worry about what a child will become tomorrow, yet we forget that he is someone today.”

Moreover, we were so honored to be part of The Melkite Greek Catholic Archeparchy of Petra, Philadelphia and Eastern Jordan. A training session about "Child Protection" was held and consisted of 55 amazing and inspirational Leaders for the younger age group of children.

And how can we forget our beloved foster Mothers as we are so proud to be a part of the adoptive parents/ foster families in Jordan

Because every child deserves to be raised in a safe family.

We are having our monthly meeting through we are providing training/coaching to the foster mothers and reaching to further places in Jordan where the trainings we do is much needed recently as a training visit to Zarqa city was conducted.

Sincerely,
Alhadaf Institute family

You can always make a difference
